

# Rescuing Food and Feeding Students with Share Tables

March 17, 2026 | 2:00 PM

Join us to find out all you need to know to minimize risk and maximize the benefits of share tables!

## Awareness

## Education

## Action

Want to recover food in your school and don't know where to start?  
Would you like to empower local schools to safely rescue edible food?

**SGA's Zero Waste Schools Team and partner experts** will share practical advice on how to safely and easily set up share tables in K-12 schools. Attendees will learn key tips to bridge the gap between their schools and local health departments, as well as practical implementation strategies.
